

# BEWARE COPY

## Imitation “Layher” from Poland

It has recently come to our attention that (very poor) Layher copy is being produced in Poland – and sold with imitation Layher stickers!

If you are contemplating buying second hand Layher, please feel free to ask for background information on it. We can often confirm whether it is likely to be genuine Layher, and sometimes even verify its history, by making enquiries from the local Layher subsidiary.

An article “Buyer Beware” appeared in the December 2007 edition of the American trade magazine “Scaffold Industry”. Please contact us if you would like a copy of this article.

We are keenly aware that our clients have invested in a proven system and are as keen as we are to ensure the Layher reputation for quality is not undermined by suspect copy systems. If you become aware of Layher “look-a-like” scaffold in your market we would be very interested in hearing from you.

## Beware of imitations!

Make sure you don't risk –

- lives, and compromise safety
- scaffolding integrity
- invalidating guarantees or insurance
- damage to your reputation
